EUREKA!

Girls participate in a 4-week STEM and life skills program. They hear directly from women working in STEM fields.

PASSPORT TO COLLEGE

Girls explore their post-secondary options by touring college campuses to find the right fit for them.

Funding Her Path to College: *Scholarship Opportunities*

In 2024,

\$222,000

in scholarship funds were awarded to 20 girls from Girls Inc. of Orange County. These funds came from local supporters and Girls Inc. National, making girls' dreams of pursuing higher education a reality.

As a shy high school girl with no academic guidance, Girls Inc. stepped into my life and gave me the strength and drive to pursue my dreams. The College Bound program gave me the resources I needed to prepare for my goal of higher education. Now, as a Neuroscience PhD graduate student at UCI, I continue to pursue my passions for scientific discovery and STEM outreach.
